Two penalties can lead to blocking of public access to your service: after penalties in two or more instances, the Board may advise the Central Government to direct blocking (s.37).

Based on: The assessment in progress, “Mumbai University DPDP Compass Baseline” — provisional: 123 questions are still unanswered.

> The processing register's gaps have never been generated.

Exposure by penalty head (the Schedule, s.33(1))

Penalty head	Status	Ceiling	Indicative position	Main reason
1. Security safeguards (s.8(5))	Not yet assessed	₹250 crore	Upper third: ₹167–250 crore	No question that evidences this head has been answered yet, and no register gap is open for it.
2. Breach notification (s.8(6))	Partially mitigated	₹200 crore	Upper third: ₹133–200 crore	1 personal data breach is recorded in the breach register (s.8(6), Rule 7), so this head is assessed from it.
3. Children and lawful guardians (s.9)	Not yet assessed	₹200 crore	Upper third: ₹133–200 crore	No question that evidences this head has been answered yet, and no register gap is open for it.
4. Significant Data Fiduciary duties (s.10)	Not applicable	₹150 crore	—	No Significant Data Fiduciary notification is recorded. TrustStack never infers this.
7. Any other provision	Exposed	₹50 crore	Upper third: ₹33–50 crore	2 processors have no contract with DPDP clauses recorded — a processor is engaged only under a valid contract (s.8(2)).

The actions that retire the most exposure

Action	Penalty heads	Severity	Owner	Due

No open action counts against a penalty head that is at stake.

Pace

Critical and high work: nothing outstanding. All work: 1 outstanding; not enough history yet to forecast a finish date. Closing about 0 actions a week; 0.1 a week are needed to finish all work by 13 May 2027.

About this report
This report is a DPDP readiness and assessment output based on information, responses and evidence made available during the assessment. It is not a final legal opinion, statutory certification or guarantee of compliance. Final legal interpretation, policy approval and contractual sign-off should be reviewed by authorised legal counsel.

About the exposure figures
Exposure figures are indicative positions within statutory ceilings in the Schedule to the DPDP Act 2023, derived from your own assessment, register and remediation data under TrustStack exposure model 1.6.0. They are not a prediction of any decision of the Data Protection Board, which imposes a penalty only after an inquiry finds a breach significant and weighs the factors in section 33(2). They are not legal advice.

Not modelled: 5. Duties of a Data Principal (₹10,000) — A duty of the individual Data Principal, not of the organisation — never shown as the organisation's exposure. 6. Breach of a voluntary undertaking accepted by the Board (Up to the penalty for the breach the undertaking was about) — Applies only once the Board has accepted an undertaking from the organisation; none is recorded in TrustStack.

Statutory ceilings, not a predicted fine; penalties are per breach.

Counsel to confirm which provisions take effect on which date; until then TrustStack uses 13 May 2027 for every head.

Indicative positions use the factors in section 33(2) that TrustStack can observe. (d) Whether the breach brought a gain or avoided a loss — the Board's own judgement. (f) Whether the penalty is proportionate and effective — the Board's own judgement. (g) The likely impact of the penalty on the organisation — the Board's own judgement.
